

2008-2010 ECONOMICS MINOR

(Minimum of five course credits)

The Economics minor enables students from a variety of disciplines and with a variety of interests to develop appreciation for and abilities in an “economic way of thinking.” Some obvious pairings for this minor are these majors and programs: Agriculture and Natural Resources, Business Administration, History, Political Science, Pre-Law, Sociology, and Women’s Studies. The courses included in the minor enable students to obtain literacy in the field of economics and, through Economics electives, combine this literacy with economic or policy issues in which they are interested. The structure of the minor allows students flexibility to choose International Economics, Environmental Economics, or other courses related to their interests.

Requirements

The following three (3) courses:

ECO 101: <i>Principles of Macroeconomics</i>	_____	1
ECO 102: <i>Principles of Microeconomics</i>	_____	1
ECO 250: <i>Applied Statistics*</i>	_____	1

AND

Two (2) additional ECO course credits at or above the 200-level, including courses listed in the *Catalog & Student Handbook*, as well as Short Term offerings

ECO ____: _____	_____	1
ECO ____: _____	_____	1

* Students who have taken a research-methods course—such as PSC 235, SOC 335, or PSY 306, or an introductory statistics course—may, in consultation with Economics faculty, choose another 200-level or higher ECO elective, in place of ECO 250.
