Subject: Voter Registration

Under the 2008 HEA, colleges and universities are required to provide students with voter registration information prior to their state's voter registration deadline.

Berea College in support of voter education, registration, and civic engagement provides the following information <http://elect.ky.gov/register.htm> which is to make voters aware of Kentucky registration deadlines and requirements, as well as to assist potential voters through the registration process. If you're interested in voter registration information from other states please visit the following site:

http://www.eac.gov/voter_resources/contact_your_state.aspx

We encourage all U.S. citizens to participate in the upcoming election process. Thank you.
