GEAR-UP fall trip

Jackson County Middle School GEAR-UP program coordinator, Fred McQueen, took 20 eighth graders to the University of the Cumberlands, Williamsburg, KY, on November 9 & 10, 2007 for an overnight educational tour of the University of the Cumberlands.

While there, the students received a tour of the campus, toured the on-campus Appalachian Museum, ate at the fine dining of the Cumberland Inn and toured Cumberland Falls on Saturday. This GEAR-UP trip allowed our students to get a much closer look at various colleges and universities. Some of our 8th graders who went on the trip said they would like to attend this university when they graduate from high school.
