

INTERNSHIP OPPORTUNITIES AT THE AUDUBON CENTER OF THE NORTH WOODS

The Audubon Center, located in Sandstone, MN, combines beautiful lake, woodland, prairie & wetland landscapes, 35 years of environmental education experience, and an incredible variety of educational programs and audiences to offer a one-of-a-kind internship opportunity.

Your responsibilities will include:

- Instruct environmental, adventure, and wildlife education programs
- Handling and training the Centers education animals including raptors
- Serve as a liaison for conference and school groups

What you get:

Once-in-a-lifetime opportunity to learn the craft of environmental education from our professional staff who have pioneered the field. We continue to lead the way through our:

- Residential environmental programming
- Training and care of educational animals including birds of prey
- Training in behind the scenes look at what it takes to run an environmental education center, i.e fundraising, budgets, etc.
- Wildlife and renewable energy outreach with our ECO-RV
- Graduate and undergraduate field courses
- Use of renewable energy

Qualifications:

- Fun, out-going personality and a good sense of humor.
- Upper level students with an interest in the natural world.
- Dynamic and motivated individuals who share our passion for the environment and education

Interested? Fall Internships begin August 27, 2007.
