

The Conservancy uses policy, science and education to ensure sustainable growth and a healthy, prosperous future for Southwest Florida's natural environment.

We are looking for college students or graduates with a keen interest in conservation as it relates to education, science, research, museums, environmental protection, and wild animal rehabilitation.

There are available internships in the Conservative Association program.

Benefits:

- Varied hands on experience on animal care, and basic medical techniques
- Housing with washer and dryer
- Uniform shirts, accident insurance
- Conservation Associate receives a stipend of \$150 per week of service
