

Emerald Youth Foundation in Knoxville, TN, is a Christian urban youth leadership development ministry and we have some opportunities students may be interested in learning more about.

We not only have many ways students can connect as volunteers or unpaid interns, but also multiple AmeriCorps opportunities. We currently have many summer AmeriCorps opportunities if any students are looking to gain some experience working with urban youth and earn some benefits as well. We also have full-time and part-time year long AmeriCorps positions available for those that are looking to make a difference for a year upon graduation.
